Client Pet Agreement

TFS clients with pets can be housed at Motel 6 locations in accordance with the Motel Property's Pet Policy. To be housed by TFS at Motel 6, TFS client must read, accept and abide by the pet policy as reprinted below from Motel 6 website.

Motel 6 Guest Pet Policy

At Motel 6, service animals and well-behaved pets always stay **free**. They are permitted unless they pose a health or safety risk or are prohibited by law. To ensure a great trip with your furry friend, please adhere to the following guidelines:

- Animals that pose a health or safety risk may not remain onsite and include those that, in our managers' discretion, are too numerous for any one room, cause damage to our property or that of other guests, are too disruptive, are not properly attended, or demonstrate undue aggression.
- Animals that assist the disabled, known as "Service Animals," are always welcome. Like pets, however, any Service Animal that poses a health or safety risk may not remain onsite.
- All pets and Service Animals must be declared at check-in. This is very important because it provides our staff with key information about the occupants of each room.
- Please be considerate of other guests when walking pets on the property and clean up after your pet.
- In consideration of all guests, pets must be attended to and under control at all times.
- Pets should not be left alone in a room or automobile.
- Due to safety concerns for our employees and your pet, we will not service a room with an unattended pet. All rooms at Motel 6 should be serviced every day to maintain health and cleanliness standards. With extended stays at Studio 6, rooms should be serviced twice per week. If unavoidable circumstances require a pet to remain unattended in a room while the owner is offsite, the pet must either be secured in a crate or travel carrier or you must notify the front desk that your pet is roaming freely in the room and what timeframe housekeeping is permitted to enter the room when the pet will not be present or when the pet is secured.
- If you fail to comply with the above and your unattended pet prevents our staff from servicing your room, you may be asked to vacate the property.

As a client of TFS housed at any Motel 6 property, by signing this document, I agree that I understand all of the terms of the pet policy as stated above for my stay at Motel 6 with my pet and willfully accept and agree to abide by all of the requirements of the policy.
